Monday afternoon Prof. Crawley's farmers slugged the business men of this town shamefully in a ball game on the school diamond, the score being as many as you please to five. A large crowd was present and enjoyed the game and it must be said to the credit of our business fellows that they stuck to the job manfully and the real play of the game is credited Martin Luther Earmen the ice man, who made a double play. The business men, too stiff to kick, are ready for another game soon.

The Origin of Mother's Day

THE thought of a special MOTHER'S DAY originated with Miss Anna Jarvis of Philadelphia in 1908, who was requested to get up a special service for the church which she attended.

The movement grew to such an extent that on May 8th, 1914, a joint resolution was approved at Washington, calling upon the President to request the governmental officials and the people of the United States to display the U. S. Flag as a public expression of our love and reverence for the mothers of our country.

The second Sunday in May was designated by President Wilson, and has been nationally observed since that date.

"The service rendered to us by the American Mothers is the greatest source of the country's strength."

"Not could notice everywhere, and therefore I made mothers."
